Jack and his mother were very poor. "Go to the market and sell our last cow" said jack's mother. "Please get a good price , Jack!"

On the way to the market, Jack met an old man. "I have these special beans. Do you want to buy them? They will make you rich!" said the man.

Jack bought the beans. But his mother was very angry. "We need food, Jack not beans!" She threw them out of the window. "Sorry, Mom," said jack. "I thought they would help us." Jack went to bed. He was sad and very hungry.

The next morning Jack saw a very tall beanstalk in the garden. It went all the way up to the clouds. Jack climbed the beanstalk. At the very top, he saw a castle. Jack went inside to see if anyone needed help.

Suddenly, Jack saw a very big giant. He was counting bags of gold coins. There was a hen on the table. The hen was in a cage. Next to the hen was a golden egg. The hen looked very sad. It was a magic hen, and it could talk! "Help me, please." cried the hen. "Save me from this terrible giant!"

As soon as Jack reached his garden, he grabbed his axe. He chopped down the beanstalk. The giant fell on the ground and ran away. The hen was happy! It was free at last.

Thank you for helping me, Jack. You are a kind boy. Can I please stay with you and your mother?" Jack and his mother weren't poor any more. They sold the golden eggs to buy food. Jack and his mother lived happily ever after.

Ingredients

2 cups semolina

1 cup yogurt

$\frac{1}{3}$ cup sugar

$\frac{1}{2}$ cup melted butter

1 tsp baking powder

1 cup coconut almonds

syrup

$\frac{3}{4}$ cup water

2 tbsp honey

My favorite recipe

We cook lots of different things, such as lentil soup, *ful medames,* and stuffed vegetables. My favorite thing to bake is *basbousa*. This is how you make it.

First, you need to turn your oven on to get it hot. Then weigh out the ingredients. Then you mix the semolina, coconut, sugar, and melted butter. You should mix these ingredients by hand. I love doing this! Then you add the yogurt and pour the mixture into a baking dish. You can use a knife to make diamond shapes on top of the *basbousa*. Put an almond on each diamond. It looks really pretty. Bake the *basbousa* in the oven for 30 minutes.

Make the syrup. Put the honey, water, and lemon juice into a saucepan. Boil the mixture for about 10 minutes.

Take it out of the oven. Then pour the syrup over the *basbousa*. Cut the *basbousa* and share it with your family!

emissions	gases from cars or factories.
shade	out of sun.
greenhouse	a glass building used for growing plants.

I can't breathe, I know that. The air is black and toxic. Inside the house we use air fresheners to try to make the air smell better. We can't go outside – there are too many cars and too much traffic. There are too many emissions from cars. It's dangerous for children's lungs and we have to stay home. There are many days when we can't go to school because the air is too bad. My little brother had to go to the hospital because of problems with his breathing.

I remember when we could go to the park and play with our friends – the grass was green and the sky was blue. We could even see the sun. now we couldn't see the sun any more because the sky is gray or black.

In the old days, it was lovely to have rain after a very hot day, but now the rain is acid and when it falls we can't go out. I remember going on holiday and playing on the beach with my family. We swam in the sea, but now we can't swim in the sea because there is too much plastic in it and it's dirty.

Other things I remember are eating from trees and sitting in their shade on hot days. But now they cut down all the trees so we can only have fruit from greenhouses and we can't sit outside any more. But wait, what's that ? it's my mom calling and it's time to get ready for school! It was all an awful nightmare! I look outside and the sky is blue and I can see the sun.

We're going to the park today. But I remember my dream and I know in my heart we need to look after our planet. We can drive our cars less, use our bikes more, plant trees, and keep our sea clean, but we must work hard at this !
